The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

16

Claims 1-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Xie et al ( US 6503620) in view of Minners( US 6236300) for reasons as set forth in the previous office action, inter alia.

17

Applicant's arguments filed 2-9-05 have been fully considered but they are not persuasive. Applicants firstly argue that, in their opinion, SMA particles would just not be required for a label, and that the proposal(i.e., obvious combined teaching of the references) offered by the examiner amounts to hindsight as there is no motivation or desirability to combine the references. To this the examiner respectfully reminds applicants that Minners indeed teaches the motivation in col 7, lines 3-10 of respective product enhancement via such inclusion. The examiner further reminds applicants in regards to their final contention about hindsight that any judgement on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But as long as it takes into account only knowledge which was within the level of ordinary skill at the time

the claimed invention was made, and does not include knowledge gleaned only from the applicants' disclosure, such a reconstruction is proper. In re McLaughlin , 443 F.2d 1392; 170 USPQ 209 (CCPA 1971).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
